The Council of State Governments

The Council is a joint agency of all the state governments—created, supported, and directed by them. It conducts research on state programs and problems; maintains an information service available to state agencies, officials, and legislators; issues a variety of publications; assists in state-federal liaison; promotes regional and state-local cooperation; and provides staff for affiliated organizations.

The Council of State Governments

The Council is a joint agency of all the state governments—created, supported, and directed by them. It conducts research on state programs and problems; maintains an information service available to state agencies, officials, and legislators; issues a variety of publications; assists in state-federal liaison; promotes regional and state-local cooperation; and provides staff for affiliated organizations.
